DISCOVER BIRD SUPREME

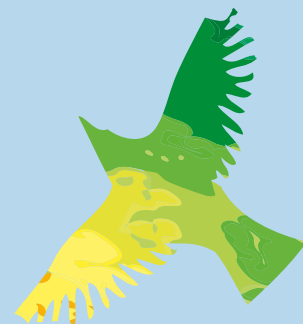

Dear customer, partner or professional,

At Bird Supreme, a brand of Vanrobaeys, everything revolves around a **passion for birds and premium-quality nutrition**. Our **unique recipes** are the result of decades of Belgian expertise in the pigeon sector, combined with the knowledge of top breeders from Belgium. This results in well balanced blends **perfectly tailored to the needs of every type of ornamental bird**, helping them stay healthy, vital and full of energy. Quality is our top priority. Every ingredient is carefully checked, our mixes are dust free and packed in **resealable bags** to preserve freshness.

In addition, the meticulously **selected components and added vitamins** in products such as Rainbow Crisp ensure a complete nutritional balance, giving your bird everything it needs for a long and healthy life.

As a family business since 1965, we highly value **close involvement and clear communication**. This family-driven focus translates into consistent follow up, reliability and continuous attention to quality. By combining **Belgian know how**, unique formulations and a personal approach, we create nutrition that every bird and every bird enthusiast can rely on.

Crafted with passion and care for your bird.
Nele Vanrobaeys
Tom De Meester

RAINBOW CRISP

Bird Supreme Rainbow Crisp is a premium blend developed with **Belgian expertise** and formulated for the **perfect nutritional balance**. Enriched with vitamins A, D and E, Rainbow Crisp supports the vitality and shine of every ornamental bird.

Thanks to our resealable packaging, the feed stays fresh for longer, while our strict quality control ensures consistent top quality in every bag.

Vanrobaeys: Quality in Bird Nutrition Since 1965

Vanrobaeys began with one clear mission: **to produce pigeon feed of the highest possible quality.** What started with founder and passionate pigeon fancier Robert Vanrobaeys grew into a family business with **decades of expertise in nutrition** tailored to the specific needs of pigeons throughout the year. Whether during moulting, breeding or racing season, pigeons require a different nutritional balance at each stage, and with carefully formulated blends, Vanrobaeys has supported **top performance, health and vitality** for national and international champions for decades.

This same **dedication and craftsmanship** naturally led to the next step: refining nutritional mixes for other bird species. Building on their experience in the pigeon sector, later generations developed balanced, **high quality blends for ornamental birds**, chickens and garden birds, each precisely tailored to the specific needs of the species. This is how Bird Supreme was born: the brand that makes this expertise accessible to every bird keeper who wants the very best for their animals.

At Vanrobaeys, quality goes hand in hand with a **warm, family oriented atmosphere.** Our employees are the backbone of the company, ensuring **clear communication, personal service and a committed approach.** Thanks to this strong collaboration and decades of knowledge passed down through generations, Vanrobaeys remains a trusted name in the world of bird nutrition.

At Bird Supreme, we are always here for anyone who shares our passion for birds.

Do you have a question about our blends, want to learn more about our products or are you considering a collaboration? **We are happy to listen and think along with you.** Our team offers **personal advice** and gladly shares the expertise Bird Supreme stands for.

Together, we provide the very best for every bird.
